

Column/Issue	Feb/Mar	Apr/May	Jun/Jul	Aug/Sep	Oct/Nov	Dec/Jan (2013)
Front Line	This column discusses current issues concerning the industry's development. We probe into the latest trends, hot topics and visions through our reports based on research and interviews with representative industry people.					
Special Focus	New development for green manufacturing	Technology trends of cutting tools in the next 30 years	Analysing the needs of machine tools users in China	Software technology of machine tools	High-end machine tool and key technology	Individual needs and customization of machine tools
Trade & Market	Prospect of China machine tool market in 2012	Overview of European and U.S. machine tool markets	High-end equipment manufacture and machine tool	Tool marketing strategy	Review of machine tool market in the first half of 2012	Machining center market in China
	China machine tool import & export market in 2011	Manufacturing services	Japan and South Korea machine tool market	Machine tool rental market	Competition between foreign and domestic machine tool manufacturers	Requirements of extreme manufacturing on heavy-duty equipment
Advanced Manufacturing Technology	5-axis machining technology	Intelligent machining technology	Composite machining technology	Special machining technology	Ultra-precision and ultra-fine machining technology	High-speed & high-efficiency machining
Metal Cutting, Forming & Casting	<ul style="list-style-type: none"> Deep-hole machining High-speed milling Precision turning Casting Metalworking 	<ul style="list-style-type: none"> High-efficiency tool Motorized spindle High-speed grinding Waterjet cutting/ Ultrasonic machining Machining center 	<ul style="list-style-type: none"> CNC metal forming machine CAD/CAM Punching Coating process and equipment Online measurement 	<ul style="list-style-type: none"> Machining center Heavy grinding Tool material and coating EDM CNC system devices 	<ul style="list-style-type: none"> Turning Cutter holder Milling Dry and near-dry cutting Grinding 	<ul style="list-style-type: none"> Linear cutting CNC system devices Rolling parts for machine tool Rapid prototype manufacturing (RPM) Metalworking fluid
Auto & Parts Manufacturing	Light-weight vehicle and technology	Mold design and forming	Welding process & equipment	Punching process & equipment	Flexible manufacture for automobile	Application of robots in the auto industry
Die & Mold Focus	<ul style="list-style-type: none"> Overview of mold industry Import and export data 	<ul style="list-style-type: none"> Mold market in YRD region Plastic mold 	<ul style="list-style-type: none"> Mold market in PRD region Die-casting mold 	<ul style="list-style-type: none"> IT mold Stepping mold 	<ul style="list-style-type: none"> Home appliance mold Mold industrial park 	<ul style="list-style-type: none"> Automobile mold Punching mold
Treasure Hunting in User's Industry	"Analysis and comments by experts and editors + Products and technology by enterprises = Systematic application solutions"					
	<ul style="list-style-type: none"> Aerospace New energy 	<ul style="list-style-type: none"> Mold Shipbuilding 	<ul style="list-style-type: none"> Engineering machinery Rail transit 	<ul style="list-style-type: none"> Medical Electronics 	<ul style="list-style-type: none"> Automobile General machinery 	<ul style="list-style-type: none"> Aerospace Rail transit
Enterprise Interview	From the development point of view, the interviews find out the strategy about brand building, marketing, R&D, technology and product innovation, etc. of an enterprise.					
Special Supplement	<ul style="list-style-type: none"> Coating CNC system 	<ul style="list-style-type: none"> Tool Metalworking fluid 	<ul style="list-style-type: none"> Robots Functional parts for machine tool 	<ul style="list-style-type: none"> Bearing unit Measuring tool and system 	<ul style="list-style-type: none"> High-power laser/ Water cutting Metalworking automation 	<ul style="list-style-type: none"> Tool CAD/CAM
Modern Management	Brand management and development	Customer relationship management	Production site management	Cost control	Efficiency improvement	Quality control
